

IAS ALLIANCES

Building Synergies for Success

ByAllAccounts founded in 1999, delivers reconciliation-ready data to investment management and advisory firms. ByAllAccounts provides an unparalleled access to financial account data from thousands of custodians and enables efficient and timely account reconciliation, performance analysis and consolidated reporting. This additional account aggregation service allows you to import transactions from other financial institutions, not readily available through other downloads. Using this relationship, you can complete the client's financial data to support planning and portfolio functions.

CashEdge® provides account aggregation services, powered by their banking, brokerage and other financial relationships. Where direct custodian downloads are not available on IAS, the CashEdge interface empowers you to automate the collection of additional client financial information – allowing you to provide a more comprehensive picture for clients, without all the work!

Forefield Inc. is the foremost provider of real-time sales, education, and presentation solutions for financial institutions and their advisors. The partnership enables financial advisory clients to benefit from IAS' market-leading planning and practice management solution, as well as Forefield's superior decision tools and financial planning content for goal planning, sales illustrations and more.

Laser App Software is designed for the registered rep/agent who is tired of filling out applications. Laser App Software is a library of over 3000 mutual fund & clearing firm, insurance, broker-dealer and money management forms. Forms are updated on a daily bases and can be downloaded 24 hours a day, 7 days a week from our secure website. Laser App automatically fills out these forms for the rep/agent, using the rep's own client information.

Morningstar, Inc. is a leading provider of independent investment research. The company offers an extensive line of Internet, software, and print-based products for individual investors, financial advisors, and institutional clients. Morningstar is a trusted source for insightful information on stocks, mutual funds, variable annuities, closed-end funds, exchange-traded funds, separate accounts, hedge funds, and 529 college savings plans. Our export function pre-fills the MS database with client positions, enabling further investment research and modeling – saving you time and effort.

Trumpet is the leading provider of comprehensive document management solutions for the financial planning industry. Trumpet combines deep experience in the financial advisory field with extensive "tech" know-how to bring advisory firms into the paperless world. Trumpet's unique implementation process, including *Working in Real Time* and *Realistic Workflow*, ensures that your firm will be successful in your new paperless process.

Mosaic provides "better business outcomes" by helping clients move to paperless business processes that are faster and more efficient. Mosaic's solutions are the alternative to filing paper in file cabinets or electronic files in folder trees, helping clients avoid spending time looking for files in response to customer, auditor, and vendor requests. Mosaic's clients have all of their "paper" and "electronic" documents blended into a unified and easily searchable archive.

Quik! is an enterprise forms automation solution from Efficient Technology, Inc. Based upon a flexible architecture that allows Quik! to work with any database and in any environment, Quik! simplifies the way you manage, pre-populate and process forms and form data, reducing forms-related costs by 75% or more.

IBM - Interactive Advisory Software (IAS) is a member of IBM PartnerWorld and participates in IBM innovation center education programs together with current certifications in IBM software in use at our clients. Optima Technologies, which owns IAS, has development facilities for configuration of its ExSellenace CRM and Opti-Insight Business Intelligence solutions using IBM WebSphere application software. Further, we partner with Avnet Corporation, IBM's largest marketer of IBM solutions for small- and medium- size companies who are upgrading their IT infrastructure to compete for today's demanding customers.

Global Index Advisors created the first and only series of Portfolio Indexes. Portfolio Indexes are used to benchmark total portfolios at various levels of risk. Dow Jones Global Portfolio Indexes and Dow Jones U.S. Portfolio Indexes are currently published in the Wall Street Journal and major index databases as standard benchmarks for total portfolio performance. This partnership provides these models to IAS, as well as includes their asset classification service.

IAS: The only unified wealth management solution.
